SUMMARY

AI/ML Engineer passionate about applying artificial intelligence to public health and development. Skilled in building ML models, AI-driven prototypes, and data visualization with Python, Scikit-learn, SQL, and Streamlit. Experienced in health-focused AI teamwork through structured fellowships and motivated by lived experiences of reproductive health challenges.

SKILLS

Python • Scikit-learn • TensorFlow • SQL • Streamlit • Power BI • Plotly • Data Cleaning • AI Agents • Team Collaboration

---

PROJECTS

CycleSense: AI for Reproductive Health *(2025)*; Built ML model and Streamlit app to assess menstrual cycle stability; co-led idea conception and deployment.
Predictive Profitability Analysis *(2024)*; Regression models forecasting SME profitability; delivered insights via dashboards.
AI Agent Experimentation *(2025)*; Prototyped assistants using OpenAI/Gemini APIs with automated data pipelines.

EXPERIENCE

AI Fellow – Women in AI Fellowship, Webfala Digital Skills for All Initiative *(Mar - Sep 2025)*
Collaborated on *CycleSense*, a 6-month health-focused AI project integrating teamwork, model building, and app deployment.

Compliance Manager – Kwara Agriculture Network Ltd (KANL) *(Apr - Dec 2023)*
Automated compliance/HR systems (50% faster retrieval) and built dashboards improving reporting accuracy by 30%.

Field Enumerator – FMARD, KwLTP *(2020 - 2021)*
Supervised 20 enumerators; ensured high-quality datasets from 5,000+ farmers for government programs.

EDUCATION & CERTIFICATIONS

MSc, Agronomy (Plant Breeding) - Univ. of Ilorin, 2018
B.Agric, Crop Protection & Environmental Biology - Univ. of Ibadan, 2014
Women in AI Fellowship - Webfala Digital Skills for All Initiative, 2025

IBM Data Science Professional Certificate - Coursera, 2024
Women Techsters Bootcamp (Data Analysis) - Tech4Dev, 2024
